**EARLY DOWNFALL OF KORNILOFF
REVOLUTION PREDICTED BY THE
RUSS PROVISIONAL GOVERNMENT****General's Army Said to Be
Outmaneuvered and Re-
treat Cut Off.****HIS TROOPS ARE DECEIVED****Told That They Were Marching
on Petrograd to Drive Radical
Element Out of the City; Com-
manders in Other Fronts Are Loyal.**

By Associated Press. PETROGRAD, Tuesday, Sept. 11.—While unable yet to report the final overthrow of General Korniloff, members of the Russian provisional government in conversation with the Associated Press summed up the situation optimistically. The new commander of the Russian army, Major General Brusilov, who formerly was attached to the staff of General Brusiloff, one-time commander in chief, has from the first been devoted to the provisional government.

An unconfirmed report received here is that part of General Korniloff's army is surrendering.

In an interview, Vice Premier and Minister of Finance Nekrasov informed the Associated Press that the commander in the Caucasus front and the commander in the Rumanian front have definitely declared their allegiance to the government.

From the commander on the western front no news had been received but there is reason to believe he remains loyal.

The attitude of the commander on the northern front is still doubtful. He based his refusal to accept the post of commander-in-chief on the fact that the position on the front required his special attention. Asked by the government for an explanation of why he allowed General Korniloff's army to pass through Pskov, he replied that these troops were subordinate to him. The government is said to have told General Klembovsky he must either define his attitude or resign.

General Lokomski, the commander of St. Petersburg, added, undoubtedly was the chief conspirator in the coup. There was evidence that the general had been prepared to march on Petrograd, but the government was caught unawares. The constitutional democrats, it is said, had no part in the plot and no members of that party had been at General Korniloff's headquarters. The government had received information that disloyalty had broken out in General Korniloff's camp.

The army sent against Petrograd, the vice-premier added, had been deceived, having been told that General Korniloff's only aim was to drive the radical group out of the capital. The government has taken measures to undeceive the soldiers on this point.

**KERENSKY WILL TAKE
COMMAND OF RUSS ARMY**

PETROGRAD, Sept. 12.—A. M.—Associated Press was informed this morning that the winter of 1917-18 will be a very dry one. The premier, Kerensky, was about to assume the position of commander-in-chief of the Russian army, at least till the revolt is crushed. Vice Premier Leksosoff, in an interview described today by the Russian news agency, said the political situation could be considered perfectly favorable. All the commanders at the front, with the exception of General Lendin, commander on the western front, who has been arrested with his chief of staff by the military committee, remained faithful. He is in the possession of government troops.

**GENERAL BRUSILOV
COMMANDER IN CHIEF**

PETROGRAD, Sept. 12.—Major General Bronch Brusilov has been appointed commander in chief of the Russian army in succession to General Korniloff.

**GENERAL KORNILOFF
IS OUTMANEUVERED**

PETROGRAD, Tuesday, Sept. 11 (delayed).—The Associated Press was personally informed this afternoon by the minister of finance that the forces of General Korniloff in the direction of Pskov and Iva, which were marching on Petrograd, had been outmaneuvered by the provisional government troops and that their retreat had been cut off.

**STATE OF WAR IS
DECLARED IN MOSCOW**

PETROGRAD, Sept. 12.—The provisional government today declared that a state of war exists in the town and district of Moscow.

**FOOD SHORTAGE IN RUSS
CAPITAL MAY HURT KERENSKY**

WASHINGTON, Sept. 12.—Shortage of foodstuffs in Petrograd may mean more difficult the defense of the Russian capital by the Kerensky government against the troops led by General Korniloff. Dispatches to the State Department from Ambassador Francis said that evacuation of Petrograd by part of the civilian population was under way and gave as a reason the scarcity of supplies rather than military reasons. The dispatches were sent three days ago.

Regarding the recent developments

**ARGENTINA SENDS GERMAN
PASSPORTS FOR LUXBURG**

By Associated Press.

BUENOS AIRES, Sept. 12.—The Argentine government at noon today sent the German legation passports to be delivered to Count Luxburg, the German charge de affairs in Buenos Aires. The whereabouts of Count Luxburg still is unknown to the government. The Argentine foreign office today sent a communication to the German foreign ministry demanding an explanation of Count Luxburg's action in sending the secret code messages to Berlin.

It was officially announced here today that if Germany feels to disapprove of Count Luxburg's action, Argentina would recall her minister at Berlin. If the government disapproved of his course, the status quo would be maintained.

In the movement headed by Korniloff, the State Department today has received no information.

**PAINELEYE IS UNABLE
TO FORM NEW MINISTRY**

PARIS, Sept. 12.—Paul Painleve, minister of war, has announced that he has been unable to form a new ministry to succeed that of M. Ribot, owing to the eleventh hour withdrawal of the Socialists. M. Painleve went to the Elysee Palace at 1 o'clock this morning where he was conferred with whom he had conferred awaiting him at the ministry of war. He returned within an hour and announced that President Poincare has insisted that he continue his efforts to form a cabinet and that he had asked for time to think over the situation.

BONAR LAW DECLARES**

British Chancellor of Exchequer Says Germany Made Mistake in Antagonizing U. S.

LONDON, Sept. 12.—Andrew Bonar Law, chancellor of the exchequer, speaking today at a luncheon given by the entire parliamentary association to Medill McCormick, congressman-at-large for Illinois, said: "In everything connected with the military arm the Germans have shown remarkable results, even genius. But in dealing with questions of human nature they have repeatedly made mistakes which have been the salvation of the Entente allies. No mistakes they have made will be so great in its consequence as that which drove the United States into the war."

"The Germans lately," Mr. Bonar Law continued, "have been saying that the Entente was relying on the United States as their last hope. I want to say to you that we do rely on the United States."

As Chancellor of the Exchequer, I am ready to say to you now what I should have been sorry to have to say six months ago, namely: without the United States assistance, the allies would have been in disastrous straits today."

**SAYS SWEDEN DARE NOT
ENTER COMPLETE DENIAL**

LONDON, Sept. 12.—The statement of the Swedish foreign office concerning the transmission of German telegrams from Argentina is regarded by the morning newspapers as extremely feeble. They say it will not satisfy the belligerents and neutrals Sweden has injured.

The Times declares that the Stockholm foreign office "dare not utter a comprehensive denial."

Would Draft Aliens.

WASHINGTON, Sept. 12.—Drafting of all aliens in the United States except Germans, others exempt by treaty, and those of countries allied with Germany, who have resided in this country one year, is proposed in a joint resolution passed today by the Senate and sent to the House. It is estimated that more than 1,000,000 aliens would be affected.

**LOCAL YOUTHS ARE
GETTING ALONG IN
AVIATION SERVICE****Herbert Duggan Now Making
Daily Flights at Mount
Clemens, Michigan.****CLYDE JONES AT ITHACA****Is Getting Preliminary Training in
Signalling, Wireless and Other
Things An Army Aviator Has to
Know; Pays \$15 For Ride in a Plane.**

Connellsville youths who have entered what is considered the most hazardous branch of Uncle Sam's service—aviation—are making good progress. Herbert Duggan, son of Councilman and Mrs. John Duggan, is now making daily flights at Mount Clemens, Michigan, and Clyde Jones, familiarly known as "Casey," is at the Ithaca, N. Y., learning heliographing, wireless telegraphy, photography, signalling, and almost countless other preliminaries to actual navigation of the air. Graduation from this preliminary training school is necessary before an aviation recruit is permitted to go near an aeroplane.

Writing to friends here, Herbert Duggan states that he is now flying every day from 7 to 11 o'clock. The students go at the thing gradually and attempt no maneuvers before they have mastered the rudiments of air navigation. The machines are big and slow but far easier to control and more stable under all aerial conditions than the faster and smaller types that are now in use on the war fronts. In the afternoon, Duggan says, the men at Mount Clemens take conversational French. French aviation officers are in charge of the school.

"Casey" Jones, who secured his transfer from the Fort Niagara Officers Training Camp to the aviation branch after winning a lieutenant's commission, has not yet completed his preliminary course. He was so anxious to experience how it felt to ride in an aeroplane that he went from Ithaca to a flying field a considerable distance away and paid \$15 for a 30 minute ride.

"It sure was great," he writes, "and aviation surely is the cream of the service."

Others from this section who enlisted in the aviation branch are Alvin Cummings of Acme and Marian Gilchrist of Ambridge, both former well-known local youths. Just what they are doing is not known.

**TWO ARMY AVIATORS FALL TO
DEATH; NAMES NOT DISCLOSED**

SAN DIEGO, Calif., Sept. 12.—Two student aviators of the United States army fell to their deaths over the North Island aviation field this morning when two biplanes they were driving collided about 1,500 feet in the air. Immediately after the accident, patrols were placed about the fields by the military authorities and no person was allowed to approach. All information regarding the accident, including the names of the dead men was refused until investigation had been made.

The names of the two aviators killed were announced as Edward M. Walsh, Jr., and Theodore D. Lyman, both of California.

Select Names of 40 Per
Cent of Quota.****DEPARTURE IS UNCERTAIN**

The draftees who will leave for camp very soon as the second 40 per cent of the quotas of Districts 2 and 5 will be listed either today or tomorrow by the officials of the local exemption boards. Letters have been received from the appellate board at Greensburg asking that the local boards certify to them the second 40 per cent which they intend to send to Camp Lee at Petersburg, Va. The officials here will take up the work at once.

The lists will be made up in spite of the fact that the district board has not certified any names back to the local boards accepted or rejected, and many cases wherein men claimed exemption are undecided. The men who passed the physical examinations and claimed no exemption are likely to make up the 40 per cent. Exactly when the men will leave is uncertain. September 15 has been set as the date, but announcement has now been made that the departure will come a little later.

**MANY INDUSTRIAL CLAIMS

WASHINGTON, Sept. 12.—More than 1,000 claims for army exemption on the grounds that the claimant is indispensable to the war industry, appealed to the President, the final judge in such cases, were on file today at the office of the Provost Marshal General Crowder, and others are coming in.

Preliminary examination is being made by General Crowder, on whose final recommendation the President probably will act. Pending the final decision by the President, the men claiming industrial exemption are subject to military duty, although in many cases district boards have granted temporary discharge.

BEATEN AND ROBBED

Mrs. Clair Tells Tale of Rough Handling by Roomers.

That a man who had been rooming at her house knocked her down and took \$2.50 and a gold watch, is what Mrs. Juliana Clair of Meadow Lane told the police this morning. She wanted a warrant issued for the arrest of the man who she says, lives in Scottdale. She was directed to go to an Alderman.

The woman said she had boarded two men at her place over night, and that when they returned to the house at noon yesterday one of them grabbed her by the throat, took the money and watch out of a pocket, knocked her down and ran, making good his getaway, accompanied by his partner. She showed marks on her neck where he had clutched her and also a cut below the eye which, she said, had been inflicted by his fist.

Mrs. Clair said the men had been sent to her house by a local Italian boy on Peach street. She alleged that he kept a den of blackleggers at his place and that she had received letters from the society demanding money, which she tore up.

Patrolman Ruhl worked the robbery case yesterday afternoon, but was not able to locate the men anywhere. They were reported to have been seen on a street car bound for Uniontown via the Phillips route. One of them lost his hat in his flight. This was turned over to Patrolman Ruhl.

ONE MAY WITHDRAW

Councilman Candidate Likely to Move Outside City.

The elimination of one of the 13 candidates from the councilmanic race becomes possible with John S. Madigan's removal from the city. Mr. Madigan says he is likely to take over Dr. E. B. Blais' house on Washington avenue, just beyond the city limits, and should he do so, he will, of course, no longer be a candidate.

The political situation is attracting little interest, and the municipal candidates are not doing much campaigning. Saturday is the last registration day, and on Wednesday comes the primary election.

FAIR AND WARMER.

Weather Man Promises a Return to More Moderate Temperatures.

"Fair and warmer," is the noon weather forecast. The "fair" is very nice but what folks hereabouts are particularly happy to see in the Weather Man's prediction is the word "warmer," for the last three days have been unseasonably cold.

In the sanitary detachment were Sergeant R. R. Sheets, Oliver P. Moser, Walter Bule, Edward L. Suckink, Scott Lowinger, Edgar Powell, John Cannon and Lloyd Shaw.

FAREWELLS TO CONTINUE

"Hubby" Williamson Says He's Coming Back Every Year.

J. H. "Hubby" Williamson, of Denver, Colo., made a visit of farewells to his home and family on Monday and Tuesday, preparatory to resuming his homeward journey after having been in attendance at the recent Grand Encampment of the G. A. R. in Boston.

While here he visited Bear Run to view the scenes of his boyhood and the farm now occupied by the Syria Country Club, and also in Uniontown and Brownsville.

Upon the occasion of his last visit, to Connellsville he warned his friends that if they wanted to see him they would have to go to Heaven or to Denver. Having taken a new lease on life he assured his friends in foretelling his footprints westward yesterday that he will continue to make "farewell" visits to Connellsville until he is 100 years old.

Tomorrow a week being his 53rd birthday, his friends will now have the assurance that they will be cheered by occasional glimpses of his cheerful countenance for at least 19 years longer.

NEED TWO TEACHERS

Grade School Instructors' Places Must Be Filled.

At the next meeting of school board it will be necessary for the directors to choose two new grade teachers. Miss Hazel Johnson, formerly of Scotland, but now of Washington, D. C., has resigned to take a government position at the national capital. Miss Johnson taught last year in the Fourth ward second grade, and this year would have taught the third and fourth grades. Mrs. Lawson Yorum, who was Miss Mildred Hicks, last year a fourth grade teacher in the Third ward school, also resigned recently when she married.

The board anticipates no trouble in filling these positions, although there is admittedly a scarcity of teachers. President J. B. Davidson left the city this morning on an automobile trip with his family and will be gone several days. As soon as he returns the directors will be called together for a meeting.

DEMONSTRATION DELAYED

County-Wide Celebration for Draft Men Not to Be Held on 15th.

At a meeting of the committee in charge of the demonstration to be held in Uniontown to all drafted men in Fayette county, the date for the demonstration, originally set for the evening of Tuesday, September 18, was indefinitely postponed because the drafted men will not leave for training camp on the 19th as the government had at first planned. The committee thought it advisable to hold the reception on the eve of departure when all the draftees will be in Uniontown for the purpose of entraining there.

This announcement indicates that men from Districts 2 and 5, who will undoubtedly extra here, will not be included in the celebration.

chestra, and Aeroplane Flights Or-
ganize the Program for Remainder of
Week; Pig Feeding Contest Decides**

The great Dawson fair, greater this year than in either of its previous 120 years of existence, opened yesterday. The opening day crowd was good, compared with last year's opening day attendance, but was poor compared with the crowds which will be at the park tomorrow and Friday, the fair's big days. A big attendance at the park today is also indicated. Yesterday was Red Cross Day, and one-fourth of the receipts will be turned over to the great American relief association. Secretary Harry Cochran has not yet checked up on the receipts and is unable to say how much the Red Cross will get.

There are no new buildings on the grounds this year, but all the old ones are being utilized. The exhibits in most cases are bigger than even the poultry exhibit is again small, but there are some choice birds in the hall.

The attractions on the midway are being thrashed by the Armia Amusement company. Everything was in full swing Tuesday.

Wallace's Singing orchestra, furnished the music yesterday and will be at the fair on all the remaining days. The musicians made a hit with their rendition of popular songs.

The horse department this year is in charge of William Haas. Howard Cummings is superintendent of the cattle department, G. W. Stephens of the sheep department, Emerson Arnold of the swine department, J. P. Shaubert and Jesse L. Snyder of the poultry department, Mrs. J. L. Snyder of the aviculture and insect egg department, Mrs. Harry Cochran of the woman's department, Mrs. Flora Snyder of the textile and fancywork department, Mrs. Margaret Snyder of the art department, Mrs. H. J. Ball of the department of jellies, preserves and canned fruit, Mrs. H. B. Moore of the department of bread, pies and cakes; Mrs. Gertrude Cochran of the children's department; and W. D. Dixon of the grains, fruit and vegetable department. Judges started work in all of these departments today.

The third annual live stock judging contest for Fayette boys and girls is being held today at the fair. The contest is conducted by Farm Agent P. E. Dougherty of the Fayette County Farm Bureau, assisted by representatives of the annual husbandry department of State college. There are about 50 entered in the contest.

Awarding the prizes in the pig feeding contest was one of the features yesterday. C. H. Bodett, Green county farm agent, acted as judge and made the following awards:

First—Cora Pearl Hixon, Dawson, aged 12, prize \$5.
Second—Paul O. Luce, Smock, aged 14, prize \$3.
Third—Frances Mulac, Dawson, aged 10, prize \$2.
Fourth—Heiden Elcher, Vanderbilt, aged 7, prize \$1.
Fifth—Jessie Cunningham, Dawson, aged 11, prize \$1.

The contest was conducted for a period of 125 days. In determining the winners Mr. Bodett allowed 90 per cent for the pig showing the largest gain in that period; 20 per cent for the cost of gain; 20 per cent for the placing of the exhibit, and 10 per cent for the essay contributed by the contestant on the subject. Cora Hixon's pig made a gain of 197½ pounds in the 125 days at a total cost of \$13.50, or an average of .078 cents. Paul Luce put 208 pounds on his pig but at cost him \$24.37. The prizes were donated by the Fayette County Farm Bureau.

The airplane in which DeLloyd Thompson will make his daring flights Friday arrived, crated, at the fair grounds Tuesday afternoon. Joe Nirella's Pittsburg band, on its way to the fair, played a short concert in front of the West Penn station this morning. Nirella has been engaged for the remainder of the fair. His organization will hold forth in the band stand, while Wallace's orchestra will be stationed in the grand stand.

SMASH SAFETY GATES.

Uniontown Autoists Persist in Crossing Ahead of Trains.

Motorists at Uniontown do not like the recently established safety gates at Baltimore & Ohio crossings there and show an increasing tendency to break through them. Charles Kanata was arrested yesterday after he had broken one of the arms of the North Galatin avenue gate, and fined \$10. Since their establishment, four gates have been either demolished or damaged by motorists crossing the tracks after the gates were lowered.

DECIDE YOURSELF

The Opportunity is Here, Backed by Connellsville Testimony.

Don't take our word for it. Don't depend on a stranger's statement.

Read Connellsville endorsement. Read the statements of Connellsville citizens.

And decide for yourself. Here is one Connellsville case of it: W. H. Lowe, 819 Tenth St., N., says: "My kidneys caused me a lot of annoyance for about a year. I was bothered constantly by pains in the small of my back and I didn't have any control over the kidney secretions. I took treatments from two doctors, but didn't get relief. I learned of Dean's Kidney Pills, got a box and began taking them. They relieved me at once. I haven't had any trouble since."

"ALL OTHERS HAD FAILED," STATES MRS. J. A. MADDOO

Cousin of Secretary of Treasury McAdoo Greatly Benefitted by Taulac.

Mrs. Jennie Madcoe of 420 Harrison avenue, McKeesport, Pa., made an interesting statement recently regarding the benefits her husband, John A. Madcoe, of the National Tube Works, a cousin of Secretary of the Treasury McAdoo, at Washington, received from Taulac. Mrs. Madcoe said:

"My husband had complained regularly of stomach trouble, gas, indigestion. After eating, his food seemed to ferment and form into a hard lump in his stomach. He suffered dreadfully from pains in his abdomen."

"He became very thin and weak and no more sleep. He couldn't sleep at night. He got so bad that I thought I was going to lose him. We had done everything we could for him. We had even sent to Chicago for medicine, but as everything had failed to help him I was on the verge of giving up hope of his ever getting better. We determined to get Taulac."

"He felt good and sleeps fine now. He is the first up in the morning every morning now. He wakes up the family and says he feels refreshed and ready for his day's business. He is so pleased with the results that he is recommending Taulac to all of his friends."

Taulac is now sold here by the Connellsville Drug Co.

Taulac can also be secured at Dunbar at D. C. Eason's Drug Store—Adv.

At the Theatres

THE PARLOURET.

WOODEN SHOES—In which Bessie Barriscale, the Triangle star, is seen in the leading role, is being presented today. So picturesque and architecturally correct are the settings in the picture that it would not take a stretch of imagination for one to believe himself looking at Holland itself. The immense Dutch street which forms a background for the early part of the story was constructed at Culver City, at a cost of over \$100,000. Canals, with cement sides and bottoms, wind their way in and out, through the closely grouped houses. A company of several hundred people, including the Triangle kiddies, appear in the street scenes.

"Wooden Shoes" is one of the most popular human stories of the land of dikes, canals, tiled roofs and quaint people ever pictured and presented. Miss Barriscale in a lovable as well as a humorous role. Tomorrow Marguerite Clark, the captivating little screen star, will be seen in "Molly Make-Believe," a five-act Paramount feature. Friday, Dorothy Phillips will be featured in "Triumph," a Bluebird attraction in five acts.

THE SOISSON.

While Musical Comedy company again pleased big houses yesterday afternoon and last night. Monday night's crowds were so pleased and advertised so well that S. O. R. was again the sign of the day. As performers are always spurred on by big audiences, the shows were put over with a snap that it was a pleasure to see. Theatres were numerous.

Everybody was of the opinion that no funnier trio was ever seen here than Darcy, Haskell and Willis. Their clowning is original and not overdone, like the work of the usual vaudeville fun maker. The scene in which the ghost appears on the deck of the ship at midnight never fails to convince the audience. Some even wonder if the ghost is real. The funnier situations and bits of business are included in "In Atlantic City," which will be the attraction for the next two days. The company appears in new and novel costumes, including some bathing outfits that are very novel and eye-filling.

ARCADE THEATRE.

"HOWELL'S MUSICAL REVUE"—At the Arcade today the Howell Musical Revue company will present "The Coming Man," written by J. H. Long. It is a famous musical comedy featuring a negro porter as the leading character, a role portrayed by Jimmie Dawson, a well known blackface comedian who joined the company today. He is a native of Georgia and has been a student of the negro fun from boyhood. For the past two seasons he has been with the big musical show "The Charming Widow." The lines of the original manuscript are closely followed and no little bits of comedy are taken from any other

show. Mr. Dawson is the only man now on the stage doing a genuine extemporaneous song, every line of which is improvised on a moment's notice. The other song numbers will be "The Irishman's Dream," by Mr. Robbins; "Sinbad Was In Bed," by Miss Saunders; the big girl with the big voice, "America There's My Boy," by Miss Lyons; "Me and My Gal," by Sid Page; Mr. Robbins and Miss Lyons, who made such a hit yesterday, will have a brand new vaudeville act. The costuming will include white baby dresses, blue satin Lucille gowns, orange soubrette dresses, evening gowns and new military suits. The screen show will be "The American Girl" and "Ham and Bud." All the shows on the Sun Circuit are strictly moral and refined and are offered by famous vaudeville artists. The Howell Musical Revue for instance having Mr. Howell, a famous illusionist, Jimmie Dawson, a famous blackface comedian; Miss Lyons was with the "Passing Show of 1916," and Mr. Robbins with George Cohan's "Object Matrimony."

ORPHEUM THEATRE.

"THE INNOCENT SINNER"—Environment and the evils to which all surroundings lead one form the theme of the Win. Fox drama "The Innocent Sinner" featuring Miriam Cooper. It is a story with many heart throbs and shows how the human heart can forgive an innocent sinner—a girl who had been led into wrongdoings by the lying tongue of wickedness. It leaves fathers, mothers, daughters, and sons better and stronger for having seen it. It brings up a big question for a man to answer. Would you, a conscientious, God-fearing man marry a girl who had indirectly caused the death of your friend and brought his mother to her grave prematurely? Also "Mutual Weekly News" will be shown. Tomorrow, "Betty Lie Good" featuring Laughing Jackie Sanders in a new series of mischievous exploits. Her Dad's a price fixer and she sympathizes with the down-trodden masses. The old man escapes indictment and she falls in love with the son of his arch enemy, the mayor who is manhandling as a traffic cop. Friday and Saturday, dainty Marguerite Clark in "The Amazons."

FIGHT FOR YOUR LIFE

Duty Demands Robust Health

Fight to get it and keep it.

Fight—fight day in and day out to prevent being overtaken by ill and ails. Keep wrinkles from marring the cheek and the body from losing its youthful appearance and buoyancy. Fight when ill-health is coming with its pallor and pains, defects and declining powers. Fight to stay its course and drive it off.

But fight intelligently. Don't fight without weapons that can win the day for without the intelligent use of effective weapons the pallor spreads and weakness grows and a seemingly strong man or woman oftentimes becomes a prey to the after ail.

You will not find this class of persons in the hypoterrin ranks. No unhealthy, dull, drab, droopy persons in that line. It is a hale, hearty, robust aggregation of quick-witted people who live in a joyous frame of mind and are mentally and physically equal to any emergency. Hypoterrin stands for sound body and sound mind—it is the invigorating tonic of the three—powerful and unsurpassed as a health restorer, vitalizer and health preserver. In nine cases out of ten a run-down condition, failing, pale complexion that "all in" feeling and frail bodies are due to lack of lecithin-and-iron personified in the system.

Your mental and physical strength and endurance depends upon a lecithin-and-iron personified in the system. With these you can meet life at any angle. This wonder tonic, hypoterrin, which is as perfect as science can yet produce, meets every essential demand of the human organism. It is safe and sure and a boon to run-down, worn-out men and women. Hypoterrin means nature's own way to health, to the cheeks, strength to the body and keeping the power and paint of youth. The powerful and paint way of creating beauty is not needed by hypoterrin women and girls. FOOTBALL HURT BY LACK OF COACHES

Hundreds Have Enlisted In Uncle Sam's Service.

INSTALL NEW INSTRUCTORS

Coach is to Gridiron Eleven What Gasoline is to Automobile—No Other Branch of Sport Calls For so Rigid Training—Has Made Deep Inroads Into Public Favor

The grade of gridiron sport which is the representative of our best schools of learning will display during the fall its sure to suffer in comparison with their former endeavors. The fact that hundreds of men who formerly acted as gridiron mentors at the various schools and colleges of the country have enlisted in the service of Uncle Sam is going to take much of the polish and smoothness from the fall pastime says Tom Thorp.

However the situation does not appear so hopeless as many gridiron followers would have us understand. True it is that many new and inexperienced instructors will be installed in the place of the old time coaches but the systems which these veteran instructors installed will continue during their absence. In this way the gridiron sport will not suffer to the alarm extent that many would be gridiron experts would have the sporting fraternity believe.

A Ticklish Proposition

Of course it must be granted that the absence of such well qualified coaches as Frank Kavanaugh, Joe Brooks, Frank Grogan, Bill Crowell, Elwood Hunt, Dan Keenan, Dick Eustace, Dutch Summers, Tom Reilly, Eggs Lynch and a hundred or more equally proficient instructors will leave the question of securing proper coaches a very ticklish proposition.

These coaches were well known and valued for the many victories which they brought to their alma maters. All were former stars in their playing days and knew the gridiron sport from A to Z, while their success as instructors was such that victory was assured their respective schools of learning even before the opening of the season.

As every one who has ever taken part in the fall pastime knows, a coach is to a gridiron eleven what gasoline is to an automobile. He gives the players the locomotive force to carry them along. It matters not how big and strong a candidate may be in his football togs, unless he has been given the right kind of instruction he is as helpless as the powerful sixty horsepower auto whose owner is endeavoring to run his engine with water instead of gasoline.

Heft and strength are powerful assets, but unless they are used at the right time and under proper conditions they are sure to prove disastrous. The proper control must be had or else the most powerful player is made to appear the weakest.

As said before, unless the players are coached properly in the fundamentals of the game and instilled with the correct fighting spirit they might as well leave football alone. No other branch of sport calls for more exacting amount of these qualities developed to a point close to perfection than the modern gridiron game. No doubt it is the wonderful amount of the fighting spirit which an aggregation must put into its efforts to prove victorious which has caused the sport to make such deep inroads into the public's favor in the short time it has been included in the list of American collegiate pastimes.

BARRED FROM FUNERAL

Family of Late Lee Darcy Bitter Toward Promoter Baker.

"Snooty" Baker, the Australian fight promoter, was barred from attending the funeral of the late Lee Darcy at the request of members of the Darcy family, who blamed Baker for engineering or making necessary the sneak play by which Darcy was snuggled to America. Previous to the funeral there was a meeting in Sydney, when Darcy's body arrived, and when Baker walked in, despite the solemnity of the occasion he was booted, and the letter requesting his absence at the funeral was read in his presence.

It is not said that Baker induced Darcy to come to America, but that he made it hard for him to get what was coming to him in Australia, where Baker held the whip hand in the promoting line. It was probably the fault of Darcy's immediate advisers that he did what he did. They came along after him, but did not go back to the funeral. Darcy was easily led.

Chick Gandi at First a Tower of Strength to the Chicago White Sox

When Clarence Rowland was rounding out the White Sox team at the beginning of the season he had every position filled but first base. This was a bad hole there. No team has ever won a championship without a star at the initial base. When Rowland landed Chick Gandi Chicago fans applauded. Gandi is one of the greatest first sackers in the game. This year has been a banner one for him.

 CHANGE OF BATTING STYLE MADE HOLKE
 A CHANGE of batting style has made Walter Holke the Giants first baseman one of the best batters in the National league.
 When Holke first donned a New York uniform at the Marine training camp he was regarded as a ball player doomed to spend his life in the bushes. But now Holke couldn't be bought.
 The reason is that Holke changed his batting style. At first he batted right-handed and now he bats from the left side of the plate. The result is that he is a 320 hitter.
 At the end of the first training camp McGraw sent Holke north with the second team under the care of Mike Doulin.
 One day in an exhibition game Holke batted left-handed. His style was much improved and he lost his gawdiness.

MESSANGER TO CRACK JOCKEY

Johnny McTaggart Greatest Horse Player Since Tod Sloan.

From messenger boy to the greatest winning jockey in the world is the five year history of Johnny McTaggart, rider for the R. T. Wilson stable and by many believed to be the greatest jockey since the palmy days of Tod Sloan.

Hard work, clean living and under standing horses are Johnny's recipes for riding to fame.
 Since he first took off his A. D. T. blue to work around the stables of the New York track, Johnny has learned his horses, has worked hard and lived with them and has kept away from the bright lights which have proved the ruin of so many riders.
 "Some people say it takes great horses to make great riders," Johnny said. "That's all bunk. It's knowing how to ride. If two jockeys of the same ability will win but a good jockey will often beat a poor jockey on a better horse."

Johnny makes this statement good by winning now and then with outsiders. Johnny's ambition to become a jockey came through his brother Tom, who is a great rider, but he has since eclipsed his brother.
 Last year Johnny rode the great Campbell and other mounts and led all

riders in winnings. With Campbell alone he won almost \$50,000.

When he entered the racing game at seventeen Johnny weighed eighty nine pounds. Now at twenty one, he scales 103 pounds.

WALTER CAMP AIDS NAVY.

Will Direct Training of 5,000 Bostonians for Service.

Walter Camp Yale's old time football player and coach, has voluntarily taken up the task of looking after the physical welfare of some 5,000 young men in training in various branches of the naval service in and near Boston. Mr. Camp went to Boston and offered his services to Captain William R. Rush, commander of the first naval district, who said he would be delighted to have him undertake the work.

Immediately Mr. Camp set out to organize physical training classes and athletic competitions in all of the camps near Boston. It is his intention to select young college men from these in training to conduct classes under his supervision.

Between the great things that we can not do and the small things we will not do the danger is that we shall do nothing.

For All the Shooting Sports—

Remington-UMC

Few sportsmen nowadays judge a day's sport merely by the size of the bag they bring home with them.

Yet a man's object in shooting is to hit what he aims at.

There's nothing like the thrill of cutting down a fast bird, of getting the clay that sails out at an unexpected angle; of scoring a "possible" when the light is bad, and mirage makes the ball's-eye swim almost out of sight.

As a sportsman, you are willing to take chances with natural conditions—but you want to be sure of your shooting equipment.

Whether a Shotgun, a Big Game Rifle, or the smallest .22 for the boy—it is the Remington that makes you want.

And in ammunition, whether Shot Shells or Metallic Cartridges, it is worth finding the Red Ball Mark of Remington-UMC on the box for the sake of the better results that Remington-UMC will give you.

HOME-READING COURSE FOR CITIZEN-SOLDIERS.

(Issued by the War Department and all rights to reprint reserved.)

A Course of Thirty Daily Lessons Prepared for the Men Selected for Service in the National Army as a Practical Help in Getting Rightly Started in the Business of Soldiering, and Introductory to the Instruction That Will Be Given in the Training Camps.

LESSON NO. 27.

The Spirit of the Service.

The spirit that dominated the American Armies at Bunker Hill, New Orleans, Buena Vista, Gettysburg, and Santiago will just as surely dominate the National Army on the battlefields of Europe.

This spirit is a compound. It is made up in part of democratic feeling, in part of respect and love for the Nation, and in part of Americanism.

The United States Army has always been and will always remain a democratic Army. Every man in the Army is made to feel that his brain and his individuality count for something. It is not merely a big, soulless machine that moves with mechanical precision. It is a "team." Each man in the team is presumed to be intelligent and self-reliant.

Democracy in the Army. Of course there can be no democracy without regularity and strict discipline. This is equally true of a football or baseball team. There must also be various ranks, and degrees of authority.

But the fact of the case is that American soldiers accept the reasonable discipline of the Army readily because they have the good sense to realize that these things are necessary. They accept them without losing in the least their real independence as free citizens.

Furthermore, American armies are democratic because the path of promotion is wide open. Any man who has a reasonable amount of ability can practice, can study, can cultivate the qualities of a soldier and a leader, and can work his way up. And this is the real test of a democratic Army.

In a special sense the National Army is democratic. A great democracy must always carry on its affairs through chosen representatives. You are doubtless familiar with this principle. It is applied in time of peace. Now it is applied in time of war. Through a process of fair selection the National Army has been picked to represent all parts of the country and all groups of the people. Never has America sent forth an army so truly representative of the Nation.

There are always pessimists in every generation who insist that patriotism is dead or at least decaying. They have not been looking in recent years. Then comes a crisis such as now confronts us. And always the question of patriotism is answered by a free outpouring of effort, money, and blood on the part of citizens of all types in every section of the country. This is exactly what is now going on—and what will continue to go on with increasing force until the war is brought to a victorious end.

Everybody Must Help. Every citizen of the United States now has or will have certain duties to perform, certain sacrifices to make. The burden does not rest wholly upon you and other men who take up arms. It rests in part also upon the men and women who stay behind. For modern war on a big scale demands that the whole Nation, in a sense, should go to war. The tasks required of some may be harder than the tasks required of others, but all of them are necessary in order to make sure of the result.

Many manufacturers and workers—often women as well as men—must give up their own work and plans in order to produce war supplies. Those who remain where they now are—because they are engaged in some occupation just as necessary in war as in peace, such as farming, mining, running railroads, and the like—must go at their work with redoubled energy and without expecting profits for themselves; it would be a great mistake if everyone were taken away from these necessary lines of effort in order to join the colors as a soldier. All must carry a heavy burden of taxation.

Certain men—among whom you are one—have been or will be chosen as representatives of the Nation to defend our rights and safety on the battlefield. You and your fellow soldiers are selected from the young men of the country who are best fitted for military service.

The process of organizing the whole Nation for war cannot, of course, be completed in a day. But it is steadily going on. It will necessarily go on until the end of the war. You must have back of you and supporting the whole country—all its people and all its wealth. Congress spoke the will of the Nation in the declaration of war. To bring the conflict to a successful termination all the resources of the country are hereby pledged.

The Post of Highest Honor. The patriotic spirit which moves the whole country will find its highest expression in its soldiers—the men who are assigned to the post of danger and of honor. They will go all the more willingly since they know that behind them the whole Nation is organizing for the national service. Their spirit will be one of patriotic devotion fully as intense as that of American armies in previous wars.

The spirit of democracy and of patriotism is to be found also in the American citizen. In addition the National Army will have its own spirit of Americanism. It will have American enthusiasm, good humor, fairness even to the enemy, and self-confidence. It will go at its work not half-heartedly but with a vim.

SENATOR GORE'S CRITICS ASK HIM TO GIVE UP HIS SEAT IN SENATE

SENATOR THOMAS P. GORE.

There are temporary setbacks it will accept them and keep on "plugging." These are some of the American traditions that will enter into the spirit of the National Army.

Fighting in that spirit and with the full strength of the country to back it up, the United States Army can not fail to achieve its objects. "Once more we shall make good with our lives and fortunes the great faith to which we were born, and a new glory shall shine in the face of our people."

JEWISH NEW YEAR

September 16 Marks Beginning of Rosh Hashanah.

The Jewish people will on Sunday evening, September 16, enter their houses of worship to usher in their Rosh Hashanah, or New Year, 5678, which marks the beginning of the cycle of sacred observances held during the month of Tishri, the seventh month of the Jewish calendar. While every New Moon, in ancient times, was greeted by the sounds of the shofar (trumpet), the seventh month or New Moon, coming after six months of work in the field, was welcomed with religious exercises as a month of rest and recreation by the agricultural inhabitants of Palestine. (Numbers X, 10.)

The Jewish New Year is known by different names, and each expresses something of its spiritual significance. Numbers XXIX, I, designates it as "The Day of Blowing the Trumpet (Shofar)." New Year occurs in the autumn, when the falling leaf and fading flower turn man's mind to serious reflection, and sounds the admonitory message: "Awake, and ponder your deeds; remember your Creator; return to Him in penitence. Be not of those who reach out after shadows, and waste years seeking vain things which cannot profit or deliver. Look well to your souls and consider your acts; forsake each of you his evil ways and thoughts, and return to God, that He may have mercy upon you."

Rosh Hashanah is also known as "The Day of Memorial." The Day of Judgment, of self-examination. Tradition holds that on this Day the Ruler of Life weighs the deeds of man, and allows to each his destiny, as it were, for the coming year, for weal or woe, for life or death.

THREE GOOD RACES ON OPENING DAY'S CARD AT DAWSON

Jim Mac Takes 2.18 Trot in Five Hard-Fought Heats; Royal Penn Second.

POOR TIME; TRACK SLOW

March Fast is Winner in 230 Trot, Tailing Money in Three Straight Heats; Snappy Running Race; Fred Jamison's Horses Not in Money.

Three interesting races were staged yesterday at the Dawson Driving park, as the first card of a four day program being run off in connection with the Fayette county fair.

The races were hard fought, but poor time was made. The best of the 218 trotters could do was 2:18, and 2:31, was the 230 trotters' limit. Horsemen declared the track was slow, though there has been no rain, and the course was seemingly in the best possible condition.

Five heats were run off in the 218 trot. Royal Penn, owned and driven by W. E. Miller of Washington, D. C., took the first two heats and Jim Mac, with T. E. Reed of Crafton in the sulky, took the last three heats and first money. The leaders staged a battle royal in the last heat until, after going under the wire for the first time, Jim Mac got the inside track and Royal Penn broke, galloping almost the whole way around the track.

In the 230 trot, there was nothing to it but March Fast, W. J. O'Neil's boy gelding, with Arnold driving. March Fast won in straight heats.

The dash was closely contested with Lady Betty, a three-year old bay mare, first under the line. Yesterday's summary:
